## Overview

Relax in a nice comfy coach seat and take in the natural canvas passing by the window

### Season

📅 1. July - 31. August

### Departs point

📍 The Pulpit Rock Cottage, Tyssedal and selected places during the trip

### Duration

🕒 5 h

This is the occasion for you if you are looking for those ultimate "Instagram moments" and enjoy the combination of adventure and nature. Go Fjords will arrange everything for you to enjoy two of Norway's most famous mountain excursions in one! This one's in demand! You choose the order yourself – the scenery and views are just as good whether you choose to go to Preikestolen or Trolltunga first.

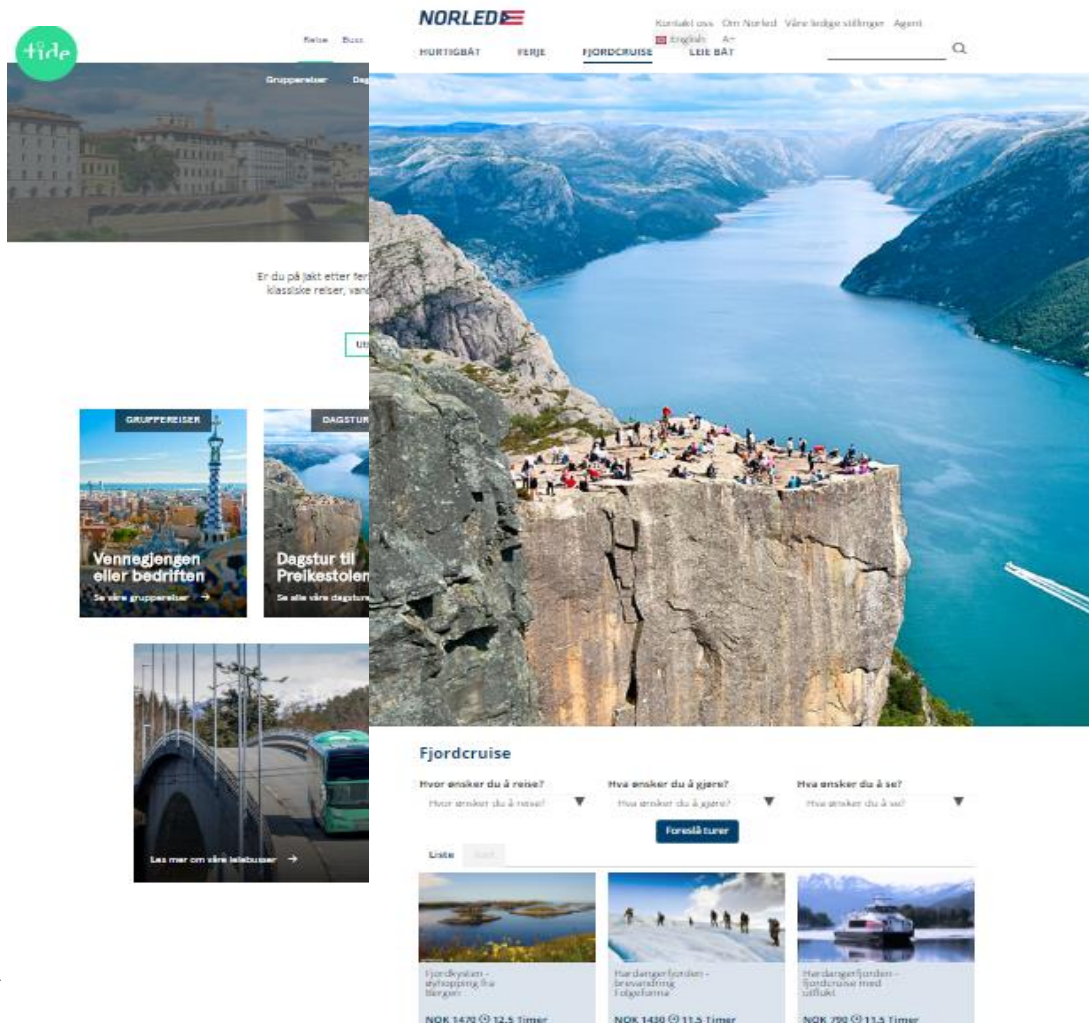

The Trolltunga rock formation is just as magical as it looks in the pictures as it protrudes over the lake of Ringedalsvatnet. Just as magical is the feeling of getting there after the demanding hike, which is definitely not for beginners.!

Formed by glaciers around 10,000 years ago, Preikestolen is the perfect example that big experiences never go out of fashion. Norway's most popular tourist destination is a 604-metre high dolosseas looming over Lysefjord.

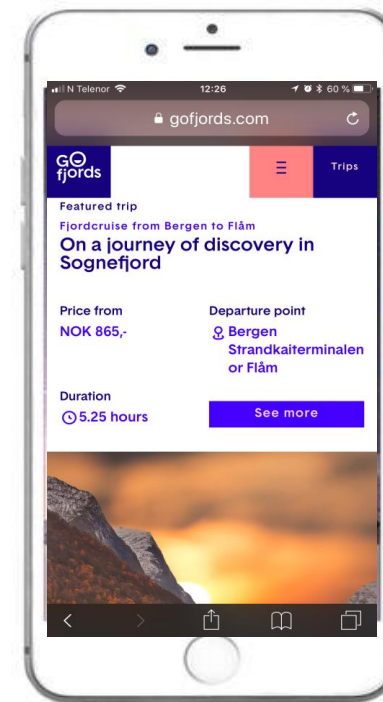

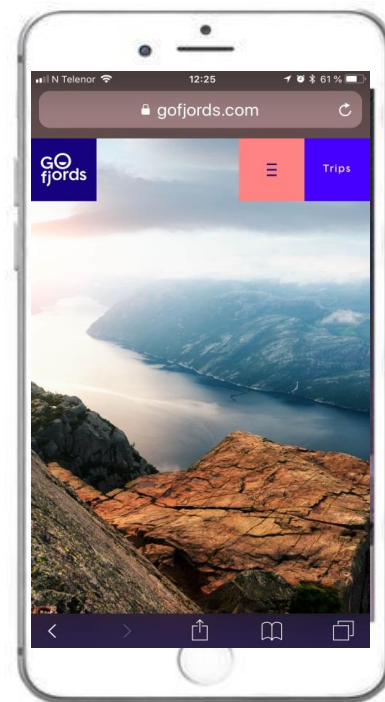

And just to say – it's anything other than a boring bus trip that takes you between the two mountain peaks. Highway 13 from Steingjerde via Ryfylke and Hardanger to Bergen is known as the "Discovery Route". In the 1880s, tourists travelled here by horse and carriage to experience the spectacular scenery of Western Norway. Although transport is hugely more pleasant today, the landscape is just as impressive.

# Go Fjords skal skape en bedre kundeopplevelse og være en merkevare som kunden forstår
